CHILD HEALTH CONFERENCE

A Child Health Conference was held for the pre-school children in October. It was conducted by the Division of Maternity, Infancy and Child Hygiene, of the State Board of Health, under the direction of Miss Vivian M. Jennings, field nurse for Carroll and Belknap Counties.

The examinations were given by Dr. F. S. Lovering.

Eleven children were examined. Nine had some physical defects. Ten defects were found. One was corrected, three were placed under treatment. Six demonstrations were given. Four defects had been corrected since the last Conference.

The fire insurance on the books in the Library, amounting to \$16.50, was paid for by the Selectmen.

Miss Dorothy Annable, Secretary of the New Hampshire Library Commission, came here in February, 1930 and taught us to catalog the books according to the Dewey system. The necessary supplies were purchased and, with Mr. Streeter's help, the work was finished early in March. Miss Annable was most courteous and helpful, and the Trustees deeply appreciate her services. At her suggestion the worn out books and those never called for, were discarded. By vote of the Trustees, the books were offered to the County Commissioners, who sent for them and were glad to install them in the County Hospital Library.

The apparent discrepancy in the number of volumes at present accounted for in the Library is due to this loss which was more than offset by addition of books given late in 1929, and by others not previously classified.

Subscriptions for four magazines to be placed on the reading tables begin with February numbers. In an attempt to please several classes of readers the selection is varied as follows: National Geographic, Good Housekeeping, Popular Mechanics and Child Life. The Trustees hope the reading public will avail themselves of this privilege.

MARTHA H. FRENCH, Treasurer.

Board of Trustees, M. P. L.

SUPERINTENDENT'S REPORT

To the Citizens of Moultonboro:

In a "Parents Magazine" published in 1840 there is an article on "What will Educate Your Children."

The answer is "Your example will educate them—your conversation by your fireside—the business they see you transact—the likings and dislikings you express—these will educate them—your home, your table, and your daily behaviour will educate them."

The writer goes on to advise sending the children to school and furnishing them with books at home.

"Still, after all this, never for one day forget, that the first book read, nay, that which they continue to read, and by far the most influential is that of their parents' example and daily deportment."

It is just as true today that the whole environment of the child has to do with his education. Parents, neighbors, and casual acquaintances all have their influence for good or ill, but few feel their responsibility.

A very encouraging and pleasing feature was the action of the selectmen in improving the school yard at

TOWN OF MOULTONBORO

the Ambrose School. Not only was it a needed betterment but it showed a spirit of voluntary cooperation and interest that is greatly appreciated.

The delightful, attractive new public library will doubtless have an increasing influence in improving the cultural environment for the young people.

The grounds at the Village School need considerable improvement and beautifying. The roadway needs grading and there should be filling and smoothing of the land between the front of the building and the street.

The Green's Corner school is very poorly situated. Fortunately there have been no accidents there, but traffic that it is a case of continual worry for parents the school is so near the road, where there is much and teachers.

The trial of music in all the schools this year has made a splendid start. The excellent roads to all the schools in town now make it possible for all the children to have nearly the same advantages.

Health is a first consideration for all of us. We use many devices in the schools in an attempt to establish correct health habits, but there is need for better and more thorough follow-up work.

A school nurse who, under the direction of the medical inspector could consult with parents and help arrange for remedial action would be a great boon to all.

Moultonboro per pupil cost is about the median for the state but its cost per \$1000. of equalized valuation is very low.

Moultonboro pupils in High Schools outside of the town are averaging to do very good work, indicating not only that the schools are giving good preparation to the pupils, but that there is excellent stock to draw from.

Respectfully submitted,

ERNEST W. SMALL, Supt.
